Rice Bran Wax (Crude)

TECHNICAL DATA SHEET

Rice Bran Wax (Crude) crude plant wax for professional ingredient formulation and manufacturing.

CAS No.	8016-60-2
Source	Rice bran
Physical form	Dark brown solid

Product Information

Crude rice bran wax is a dark brown plant wax with defined wax content, oil content and melting range. Crude and refined rice bran wax are separate materials with different appearance and oil content. The supplied grade is dark brown solid.

The technical profile describes wax content, melting range and saponification value. These properties allow formulators to compare the selected grade with other plant waxes before defining their manufacturing and purchasing requirements.

Specifications

Parameter	Specification
Appearance	Dark brown solid
Wax Content	90% min
Oil Content	10% max
Melting Point	75-79 °C
Saponification Value	85-120

Typical values. The COA of each batch prevails.

Typical Properties & Commercial Information

MOQ	500 kg
Packing	25 kg/bag
Lead time	Approximately 14 days
Free sample	500 g
Incoterms	FOB / CFR / CIF
Annual supply	On request

Free sample: up to 500 g. Courier cost payable or use your courier account.

Applications

Personal care structures: Rice bran wax offers a plant-derived wax option for suitable sticks, balms and other structured personal care formulations.

Coatings and polishing blends: Suitable coating and polishing formulations can incorporate the selected wax grade.

Wax blend evaluation: Blend trials allow formulators to compare rice bran wax with other wax ingredients.

Packaging & Storage

Packaging	25 kg/bag
Storage	Keep in cool & dry place. Keep away from strong light and heat.
Shelf life	3 years when properly stored.
Container loading	Qty in 20′ FCL: 8MTS(with pallets)

Certifications & Documents

KOSHER · HACCP · FSSC 22000 · HALAL · ISO 9001 · ISO 22000

COA for each batch, TDS and SDS.
