Product Information

Concentrated fish-origin nutrient paste for qualified feed and agricultural nutrient blends.

Specifications

Parameter	Specification
Physical form	Paste
Colour	Light brown
Odour	Slight fishy smell
Crude protein	≥30 %
Crude fat	≥5.0 %
Total solids	≥45 %
pH	3–8
Ash	≤12 %
Salmonella	Negative

Grade-specific supply limits. The agreed specification and batch COA govern delivery.

Typical Properties

Property	Typical Value
Crude Protein	≥30%
Total Solids	≥45%

Applications

Aquaculture feed formulations: Marine nutrient and palatability component for qualified aquaculture feed development.

Animal-nutrition and feed blending: Fish-origin protein, fat and mineral ingredient for selected animal-nutrition systems.

Agricultural nutrient and pellet blends: Component for technically supervised agricultural nutrient or feed blends using compatible raw materials.

Packaging / Storage

Item	Information
Packing	240 kg iron drums
Storage	Store sealed original drums in a cool, dry area away from excessive heat and direct sunlight. Protect from microbial contamination and spoilage. Do not use swollen, leaking or visibly spoiled material without a quality assessment.
Shelf life	18 months in intact original packaging stored cool and dry.
Handling	Use hygienic closed transfer equipment, adequate ventilation, gloves, splash goggles and protective clothing. Avoid mist, ingestion and unnecessary contact. The material is fish-derived; consider sensitized workers and wash after handling.
