

Gardenia Green

Water-soluble gardenia-derived green colour preparation for qualified formulation development.

CAS No. Natural colour preparation	EC / List No. Not assigned (natural preparation)	Transport Non-dangerous goods
---------------------------------------	---	----------------------------------

Product Information

Gardenia Green is a natural colour preparation derived from Gardenia jasminoides materials. It is supplied as a green, water-soluble powder standardized against a declared colour grade. The commercial botanical preparation contains multiple constituents and is not described by one fixed molecular formula or formula weight.

Specifications

Parameter	Specification
Appearance	Green powder
Colour strength, 440±5 nm	Conforms to declared grade
Loss on drying	≤7.0 %
Ash	≤4.0 %
pH, 10% solution	5.0–7.0
Arsenic	≤2 mg/kg
Lead	≤3 mg/kg
Heavy metals as Pb	≤40 mg/kg
Total plate count	≤1000 CFU/g
Yeasts and moulds	≤100 CFU/g
Coliforms / E. coli / Salmonella	Negative

Grade-specific supply limits. The agreed specification and batch COA govern delivery.

Typical Properties

Property	Typical Value
Colour Character	Green shade
Solubility	Water soluble

Applications

Food colour formulations: Natural colour for selected permitted food recipes. Evaluate shade, dosage, processing and complete-product stability with the declared supply grade.

Beverage colour development: Ingredient for qualified beverage colour trials. Test dissolution, pH, heat treatment, light exposure and interactions with the full formulation.

Natural colour blends and personal care: Colour preparation for qualified blends and other permitted formulation applications. Compare carrier compatibility, shade balance and destination-market requirements.

Packaging / Storage

Item	Information
Packing	25 kg lined cardboard drums
Storage	Store unopened powder in a dark, dry place, preferably at 5–10°C. Protect against heat, moisture and microbiological contamination.
Shelf life	12 months in unopened original packaging under the stated storage conditions.
Handling	Use ventilation, suitable gloves and eye protection. Follow the matched SDS.
