

Lily Aldehyde

Floral aromatic aldehyde for permitted professional fragrance and industrial formulation applications, subject to destination-market restrictions.

CAS No. 80-54-6	EC / List No. 201-289-8	Transport Non-dangerous goods
--------------------	----------------------------	----------------------------------

Product Information

Floral aromatic aldehyde for permitted professional fragrance and industrial formulation applications, subject to destination-market restrictions.

Specifications

Parameter	Specification
Appearance	Colourless to pale-yellow liquid
Odour	Floral, lily-of-the-valley type
Assay	Commercial fragrance grade; agreed supply specification
Acid value	Reported with the agreed supply specification
Colour	Reported with the agreed supply specification

Grade-specific supply limits. The agreed specification and batch COA govern delivery.

Typical Properties

Property	Typical Value
Molecular formula	C14H20O
Molecular weight	204.31 g/mol

Applications

Permitted industrial fragrance compositions: Floral aromatic aldehyde for professional fragrance development where legally permitted.

Household and air-care formulation evaluation: Ingredient for permitted household cleaning and air-care fragrance concepts.

Candle and non-cosmetic aroma development: Material for permitted candle and non-cosmetic fragrance development.

Packaging / Storage

Item	Information
Packing	25 kg sealed drums
Storage	Store tightly closed in compatible containers in a cool, dry, ventilated place protected from light, heat and ignition sources. Segregate from strong acids, strong bases and oxidizers.
Handling	Use effective ventilation and avoid vapour, mist and direct contact. Wear chemical-resistant gloves, splash goggles and protective clothing. Do not handle until safety precautions are understood; apply controls for reproductive toxicity and skin sensitization.
